Hallowe'en Community Parade—Bigger and Better Than Ever

Thousands of people took part in the annual Hallowe'en Community Parade last night. The parade was the largest and best ever held in Grimsby. It was a real treat for everyone who enjoyed the entertainment provided.

They came in thousands, they looked, they laughed, at times they were dumbfounded at the many and varied costumes in the community Hallowe'en Parade last Friday night. The crowd that jammed Main Street between the Village Inn and Oak Street would at a conservative estimate number between three and five thousand including the line of march. The committee and those closely watching the growth of this annual affair were of one mind that this year's celebration was just three times larger than last year which was very gratifying to the committee. The costumes of the parade were also good. Some were gorgeous and some were hideous but they were all costumes that suited the occasion. Every man, woman and child entered wholeheartedly into the occasion and this was what made this year's and also last year's event a success, "The Community Spirit." For over a week before the big night the committee felt perfectly satisfied that they in their efforts were not alone in the matter. The merchants and the managers of all factories and private citizens were not only working but all donated to the cause in the form of prizes which included some very beautiful and costly articles. The committee wishes to take this opportunity to publicly thank the Police force and the Firemen who not only worked hard but played as well. Chief Demill had his end of the work well organized and it went without a hitch while Major W. W. Johnson never stopped going all night, trying to make everybody happy. The behavior of the big crowd was excellent. There was not a little miss to mar the pleasure of the evening. No doubt the public were aware of the extra policemen on the force that night. The chief had his son in uniform in case of emergency. The judges were the hardest worked in connection with the whole affair. This is where the spirit of the contestants asserted itself. They took the judges' decision as final. "Without a word of complaint," the committee wishes to convey its expression of its gratitude to Mr. and Mrs. Linden-Smith, Mr. and Mrs. Hittman, and George and Mrs. Doucette who acted as judges. There was just one regret. The hall was not big enough but this will be overcome next year. The committee has decided on the arena for the third annual event. The different costumes could be enlarged upon if space permitted. For special mention the Old Boys' Band was a scream and what a nice thought of somebody to get this band together again. It is to be hoped it will be another start for a Grimsby band. The absent minded professor carrying his pants on his hind instead of on his legs was very realistic.

The committee took a long chance on making a class for the prettiest girl on parade, however, this class was well filled. "Nobody but our own Annie Betts" was out to be the first choice and Mary Pickett the second choice and the judges were right, believe it or not. Then came Tom Walker and his Chinese rickshaw, the Berry twins, the elephant and giraffe. There was a lot of work put into these. It all goes to show what can be done with a little work which will increase the interest of this occasion as each year goes by.

The committee is also grateful to all the merchants and managers of factories for their help and co-operation in this event. There was not the formality about the presenting of the prizes that there should have been. Mayor Hewson and Alderman Thos. Worsley were on the job for this part of the parade. With such a dense crowd the prizes were simply handed to the winners by the committee as best they could.

The winners were:
All round Costume (12 yrs. and under)
1st, \$10.00 gold—Jean Wood
Bonafide Twins
1st, \$5.00 Bank Act—Berry Twins
2nd, Box of Chocolates—John and Billy Worsley.

POPPY DAY FOR GRIMSBY SATURDAY, NOVEMBER 9th
The citizens of Grimsby and vicinity will have an opportunity of contributing something to the Poppy Fund on Saturday of this week. The West Lincoln Branch of the Canadian Legion are organizing the tag day and poppies will be sold by members of the Girl Guides of Grimsby.

The Poppy Fund was established for the assistance of returned men who through sickness or other misfortune are temporarily unable to provide for themselves or their families. Many men get help from this fund who receive no assistance whatever from any other source.

The Legion appeals to the citizens to deal generously with the Poppy Fund and thus help to provide relief for men who are today suffering the effects of hardships and exposures overseas.

Council Rents New Offices

Will Utilize Former Masonic Hall Next to Town Hall For Municipal Purposes—Present Town Offices to be Used By Fire Department.

The Grimsby town council took definite action at its meeting on Monday evening with a view to solving the problem arising out of the lack of adequate quarters for municipal purposes which has been the subject of discussion for some time when it passed a resolution providing for the rental of a number of rooms above the stores of W. Chivers and Sons, B. Boulter and C.J. Love Main St. from Mr. J.H. Wells.

The rental is to be \$25.00 per month for the flat, which has been leased for a period of one year. It comprises large spacious rooms suitable for municipal purposes.

On the west side is a large hall, forty feet deep, which will be used as council chambers and as a general meeting place for ratepayers. It was formerly used as the Masonic Hall.

The centre room will constitute the offices of the town clerk and treasurer, while the two rooms on the west side will be used as committee rooms.

There are also two rooms for storage purposes on the third floor.

It is the intention to connect the new town offices and the former offices which will be used by the fire department, by a door so as to provide ready access to either the town offices or the fire department rooms.

The new council rooms will also be used by the North Grimsby township council for its meetings.

It is understood that the new quarters will be heated by natural gas.

The present council chambers will be converted into a recreation room for the members of the fire department, while the clerk's office will be utilized as the police and fire chief's office.

It is understood that police court will continue to be held in the present council chambers.

It is expected that the new quarters will be ready for occupancy in the course of the next week or two.

A beautiful basket of baby mums was recently presented to the staff of the Grimsby Branch of the Royal Bank by the supervisor for Ontario in recognition of the branch having the most efficient staff in his division.

Not Prepared to Complete Alexander School Purchase

Representatives of Company Appear Before Board of Education and Ask For Return of \$500 Paid on Deal—State That Duty On Gasoline And Delay in Issuing Permit Responsible For Decision.

Messrs. Bromley and Thomas who have been acting in behalf of an American company in connection with the purchase of the Alexander School property for a gasoline service station, reported to the Board of Education at its meeting, Wednesday evening that the company had decided not to go on with the deal on which the sum of \$500 had been paid. It was stated that the fact that the government had imposed a two and half cent duty on gasoline coming into Canada as well as the delay in the granting of the permit was responsible for the decision not to complete the purchase of the property at this time.

The above representatives of the company asked for the return of the \$500 paid to the board. The purchase price which was \$950 but the Board took no action on the request.

Youths Busy On Hallowe'en

Despite the arrangements made to furnish entertainment for the young people on Hallowe'en night this evening was not sufficiently exciting for certain youths who visited property of residents on Robinson St. as well as on some other streets which was more or less damaged. It was reported that a screened-in verandah was damaged while fences were torn down and out-houses overturned. In the west end of the town the electric lights were the targets for some party or parties with air guns. A highway stand west of the town was badly damaged while in other cases obstructions were placed across the roads endangering traffic.

Memorial Service In Moore's Theatre

The annual Memorial Service under the auspices of the West Lincoln Branch of Canadian Legion, will be held in Moore's Theatre on Sunday afternoon at 3.45 o'clock.

The speaker will be Major Rev. A. Graham of Stamford, while Mr. F. R. Hillier will be the soloist. The pianist will be Mrs. Richard Shafer.

The ministers of the various churches of the town will have charge of the service.

Township Roads in Excellent Condition

Annual Fall Inspection Made By North Grimsby Council—Various Roads Have Been Stoned and Generally Improved.

The North Grimsby Township Council commenced their annual fall inspection of the roads of the municipality on Monday covering the roads on the mountain. On Thursday the council will inspect the roads below the mountain.

The entire council composed of Reeve Oakes, Deputy Reeve Lawson and Councillors Crittenden, Hurd and Smith together with Road Superintendent Russ made the inspection.

The council first moved over the Ridge Road which was found to be generally in an excellent condition. This being a heavily travelled road it has been given a good deal of attention the past few years and is standing up well under the traffic.

Some years ago the township acquired a two acre piece of woodland, situated on the ridge road, for park purposes. It was secured from the county for the small amount of \$30 and promises to become a very valuable asset, an increasing number each year utilizing it for picnic purposes.

It is bordered on the west side by a deep ravine and the council, in order to protect the public decided to erect a guard along the ravine so as to prevent accidents. The question of cleaning out the brush and eliminating the dead trees was also discussed and action in the matter will likely be taken in the near future.

There is also a stone quarry on the park property which enhances its value.

The town line road was next inspected. A portion of this road in the vicinity of Grassies has been freshly stoned this year, which will materially improve it.

The Grassie Road from that place to the Ridge road which was treated with 16 inch stone this year, was also found to be in excellent shape.

The next road inspected was No. 17 where a big improvement has been made. It has been graded up and the ditches cleaned out. All that is required to put it in first class shape is stoning and this will be done as soon as the funds are available. A new concrete culvert has also been constructed on this road.

Road No. 5 was also found to be in excellent condition. During the year a new culvert was constructed on this road also.

Inspection of road number four revealed it to be generally in splendid condition. This road was treated with road gravel last summer which has greatly improved it. The bridge on this road has also been newly plankled, while one-quarter of a mile of the road has been gravelled.

Another road which was found to be in good shape was road No. 16, a portion of this road having been stoned last year.

Men's Club Re-organizes

Trinity Church Organization Elect Officers For Season—Enjoys Prosperous Year—Hears Excellent Address By Rev. A. DeRose.

The annual reports presented at the reorganization meeting of the Men's Club of Trinity United Church held in Trinity Hall, Tuesday evening reflected an encouragingly successful year. The meetings throughout the season which were of an impressive character.

On Sunday morning, Rev. Canon Howitt, of St. George's Church, Hamilton, who was the rector in charge when the church was built, was the speaker. Rev. Mr. Noxon, of Hamilton, assisted Rev. Mr. McLannan in the communion services.

In the evening, Rev. West McMaster, of Orangeville, and formerly of Winona, preached.

The anthem in the morning was "Send Out Thy Light" by Gounod, and in the evening the anthem was "The Day is Past and Over" with Mr. Sydney Jones, of Winona, taking the solo.

On Monday evening an anniversary dinner was given in the hall.

Several former rectors spoke, including Canon Howitt, Rev. Mr. Noxon, and Mr. Tew. Eyck, of Hamilton. Senator E. D. Smith acted as chairman.

Those assisting in the musical program were: Mr. E. Bennett, Miss Melke, of Hamilton; Mrs. MacCallum and Mr. Sydney Jones, of Winona.

An interesting feature of the program was the presentation to the church of the crown deed of the land on which the church stands, by the two daughters of Mr. Pettit, of Winona.

ARMISTICE SERVICE
An Armistice service will be held in Trinity United Church on Sunday evening, when the unveiling and dedication of the bronze memorial tablet in honor of men who gave their lives overseas will take place. Special music will be furnished by the choir. On Sunday morning a Thanksgiving service will be held.

Antidote for Fatigue
Mary found her nurse's training course interesting—but tiring. By night-time she didn't feel equal to anything but resting in her room. But she soon discovered the telephone. She could give her more joy than any outside pleasure—happy talk-trips to her family and friends. She no longer has that "tiredness" feeling.

Court of Revision Hears Appeals

Some Appeals Against Special Sewer Assessments Allowed—Other Assessments Sustained—Court Had Busy Session.

A Court of Revision to hear and determine appeals against the special assessments in connection with the laying of sewers was held in the Council Chamber on Tuesday evening.

The Court had a busy session and did not conclude until after eleven o'clock, quite a number of appeals being presented to support their appeals.

The Court was composed of Mayor Hewson, Reeve Wilkins and Councillors Boulter, Bourne and Chivers.

In a number of cases appeals allowed were in connection with a revision of frontage and the correction of clerical errors while in other instances the appeals entered against assessments were not sustained.

The appeals of Geo. E. Bolton, Mrs. A. Weeks, Wm. and Mrs. Montgomery, Ira E. Irwin, and Mr. Blanchard all of Robinson St., were allowed.

The assessed frontage of Mrs. Ella Calder, 62 Main St. E. was allowed to stand and the actual frontages will be corrected in the roll in accordance with appeals.

The appeal of Jas. Wray and A. F. Hawke re lane or driveway was not allowed. Mr. Wray will be allowed ten feet on private connection and A. F. Hawke will be assessed for one connection only.

The appeal of G. M. Beamer was not allowed while W. Bromley will be charged with sewer connection on basis of 45 ft. of sewer and S. F. Williams will be charged one service, and assessment will be corrected to read 30 ft. of sewer.

The assessment of D. E. Anderson, Main and Depot Sts., was sustained and the appeal of R. J. Sneltinger on Depot and Main Sts. was not allowed.

The appeal of Niagara Peninsula Hotel will be corrected to read two ft. on Elm St. and assessment on Mountain St. was sustained.

The assessment of C. J. Eames, on Lots 46, 48 and 50, Main St., W., will be corrected to read 34 ft instead of 38 ft.

C. J. Eames will be charged for No. 56 and 58, Main St., W., Mansion House Hotel, and Mr. Sneltinger's was corrected to read 37.5 feet on Lots 52 and 54, Main St., West.

The assessment of W. C. Rightmeyer was changed to read 59 ft instead of 62 ft on No. 22 Robinson St. S. and also to read on Lot No. 48 fifty-two ft.

The special roll as corrected was confirmed and the clerk authorized to sign and certify the same.

St. John's Church of Winona Observes 40th Anniversary

St. John's Church, Winona, observed its 40th anniversary on Sunday when services of special interest appropriate to the occasion were held. Large congregations gathered for the services which were of an impressive character.

On Sunday morning, Rev. Canon Howitt, of St. George's Church, Hamilton, who was the rector in charge when the church was built, was the speaker. Rev. Mr. Noxon, of Hamilton, assisted Rev. Mr. McLannan in the communion services.

In the evening, Rev. West McMaster, of Orangeville, and formerly of Winona, preached.

The anthem in the morning was "Send Out Thy Light" by Gounod, and in the evening the anthem was "The Day is Past and Over" with Mr. Sydney Jones, of Winona, taking the solo.

On Monday evening an anniversary dinner was given in the hall.

Several former rectors spoke, including Canon Howitt, Rev. Mr. Noxon, and Mr. Tew. Eyck, of Hamilton. Senator E. D. Smith acted as chairman.

Those assisting in the musical program were: Mr. E. Bennett, Miss Melke, of Hamilton; Mrs. MacCallum and Mr. Sydney Jones, of Winona.

An interesting feature of the program was the presentation to the church of the crown deed of the land on which the church stands, by the two daughters of Mr. Pettit, of Winona.

Grimsby to Receive Grant For Relief Work

Government Approves of Proposal to Extend Sewerage System as a Measure of Unemployment Relief—Grant Based on Expenditures Not Exceeding \$10,000—Grimsby to Receive Half That Amount or \$5,000—Will Construct Sewers in West Part of Town Provided Railway Board Approves Debentures.

At a special meeting of the Grimsby town council, held on Monday evening, a communication was read from Mr. J. A. Ellis, secretary of the Unemployment Relief Fund, Toronto, stating that the government has approved of the proposal to extend the sewerage system in the town as a measure of unemployment relief, the grant to be based on expenditures not exceeding the sum of \$10,000. As the Provincial and the Dominion Governments will contribute to the outlay made in this respect to the extent of fifty per cent, of the amount the town of Grimsby will be entitled to the sum of \$5,000. No payment in respect of expenditures will, however, be made after March 31st, 1931.

The letter followed the visit of a delegation to Toronto last week, composed of Mayor Hewson, Reeve Wilkins, Councillor Boulter and Assessor Muir, who furnished full information to the provincial authorities as to the proposed extension of the sewers as a measure of unemployment relief.

There were present at the meeting, Mayor Hewson, Reeve Wilkins and Councillors Worsley, Boulter, Bourne and Chivers.

The members present were unanimously of the opinion that advantage should be taken of the opportunity to secure unemployment relief in the form of the \$5,000 contribution to the cost of the extension of sewers and it was decided to take immediate steps to inaugurate the work. The council will retain the services of a competent engineer who will be requested to meet the council sometime this week with a view to formulating plans for the proposed extension of sewers. It was suggested that the extension of the sewers be made from the Village Inn, west, on Livingston Avenue to Nelles Boulevard, the work to include these streets and as many more as the fund of \$10,000 will permit.

If the Ontario Railway Board gives its sanction to the issue of debentures to cover the cost of the work, and it is anticipated that this will be forthcoming, the project will be proceeded with at the very earliest date possible. Unemployed citizens of the town will be utilized in the construction of the sewers.

The communication from the provincial relief office read as follows:
October 31st, 1930.
G. G. Bourne,
Clerk and Treasurer,
Grimsby, Ont.

Re Unemployment Relief
Dear Sir:
The government has approved of the following works being undertaken by your Municipality:
Sewer Contract \$10,000
The grant will be based on expenditures not exceeding the \$10,000 above mentioned.

No payment can be made in respect of expenditure made by your corporation after 31st March, 1931, for direct relief or on account of the works before set out.

You will note that the list of works and amounts approved, varies somewhat from that which you left with me. It was found necessary to make some reductions, because of the large number of applications for relief which have been received, and the large amount involved.

Yours truly,
J. A. Ellis,
Sec'y Unemployment Relief Fund.

Damage Done on Hallowe'en Night

Youths incur Disapproval By Going Beyond Bounds of Property in Their Pranks on Hallowe'en Night.

Following consideration of a resolution received from the Community Hallowe'en Celebration Committee directing attention to damage to property and annoyance caused by a number of youths, who in their pranks, went beyond legitimate bounds on Hallowe'en night, the Grimsby town council at its meeting on Monday evening passed the following motion:

Moved by Reeve Wilkins, seconded by Councillor Chivers—We, the members of the Grimsby Town Council, wish to thank the committee in charge of the Hallowe'en Celebration of last Friday evening. We realize the efforts put forth in arranging the program and in securing the prizes. We regret to know that damage has been done to some properties and recommend to Chief DeMott that the guilty parties be punished.

Mayor Hewson, in referring to the matter, said that he had no objection to the young people enjoying innocent fun on Hallowe'en night but when they resorted to the destruction of property strong steps should be taken to curb their activities. He thought the council should do what they could to stop it. He deplored the fact that advantage should have been taken of a special community night to the success of which citizens generally had contributed, to inflict damage on properties of citizens while they were absent from their homes to view and take part in the Community Hallowe'en Celebration especially arranged for their entertainment. Reeve Wilkins and Councillors Worsley, Boulter, Chivers and Bourne expressed similar views, the council unanimously passing the above resolution.

The resolution forwarded by the Community Hallowe'en Celebration Committee read as follows:

The Committee of your Community Hallowe'en Celebration feel called upon to draw your attention to the destructive tendency on the part of certain youths in this community or from outside this community, who on the night of Oct. 31st took advantage of the fact that many people had left their homes unprotected to take part in the parade, etc., and caused more or less damage and annoyance to citizens who had been good enough to support and patronize the parade.

We also feel certain responsibility to those citizens who have donated cash and prizes making for the success of the parade, as these citizens were given to understand that the primary object of the parade was to entertain the young folk of the community in a harmless way, thus eliminating unbecomingly rowdy behavior.

To justify the interest generally taken in the celebration and to prevent in future years, we recommend that this council give this their attention and take such action as they see fit.

I.O.D.E. Will Decorate Graves

The ladies of the I.O.D.E. will decorate the graves at the cemetery on Sunday afternoon and are asked to meet promptly at 2.45 opposite Moore's Theatre where cars will be waiting to take them to the cemetery after which they will be returned to the Theatre where the service will be held.

Forgetting His Bruises
Lawyer (handing check for \$100 to client who had been awarded \$500) "There is the balance after deducting my fee. What are you thinking of? Aren't you satisfied?"
Client, "I was just wondering who got hit by the car you or me."

IMPORTANT TO FARMERS
A lecture on Thunder and Lightning with lantern illustrations and some Practical Hints will be given by Mr. James Gibbs, F.R.M.S., in Moore's Theatre, on Friday November 7th, at 8 p.m.—Admission 25 cents. Proceeds to local charities.

Reckless Driver Was Fined \$25.00
Police Court Held
In police court at Grimsby, on Tuesday, N. W. Daniels of Galt was fined \$25.00 and costs by Magistrate Campbell for reckless driving. His auto struck Mrs. Gibson, mother of J. M. Gibson, Fairview Avenue on Sunday, October 26th while she was waiting to board a street car on Main Street. She was knocked down and badly shaken up.

The failure of the motorist to stop at the time resulting in the accident proved costly.

Considerable interest was evidenced in the case of the four youths who were summoned to appear as a result of Hallowe'en pranks, the council Chamber being crowded. Three of the youths who are 14 and 15 years of age will come up in Juvenile Court before Judge Campbell while the case against a youth of 16 years of age was dismissed.

Delicious Salada quality

"SALADA" TEA

'Fresh from the gardens'

Outstanding Books

Named by Walpole

London.—Hugh Walpole, the novelist said in a recent speech that there were only six books in the world worthy of being called literature. He listed them as follows:
War and Peace, by Tolstoy.

The Iliad, Homer.

Pride and Prejudice, Jane Austen.
The first volume of Keats' poetry.
Arabia Deserta, Doughty.
Canterbury Tales, Chaucer.
"As widely divergent as can be," was Mr. Walpole's comment on his selection.

Royal Purple Poultry Specific Keeps Poultry Free from WORMS

Mr. Wm. Jarrett, of Brighton, wrote us a year ago stating that his poultry had become badly infested with worms. We advised him to use 2 lbs. of Royal Purple Poultry Specific in each 100 lbs. of Laying Mash for two weeks and continue throughout the winter with 1 lb. After using it for three weeks he wrote us stating that in three days he noticed blood streaks in the droppings, and that his egg production had gone up 100%. During the Fall, Winter and Spring months he purchased 600 lbs. of this Poultry Specific. We received a letter from him the latter part of August, stating that he was amazed at the results he obtained, that his poultry were entirely free from worms, and that during August of this year his production was 100% larger than last year.

It will pay every poultryman, no matter what feed he is using, or if he mixes his own, to add one pound of Royal Purple Poultry Specific to each hundred pounds of feed during the whole season the poultry are shut in. While this great tonic destroys the worms, it at the same time tones up the birds, keeping their digestive organs active the same as if they were on range, compelling them to take from 15% to 20% more good from the feed they eat. This is naturally reflected in increased egg production.

Worms in poultry is often mistaken for other diseases. The birds become very thin and show symptoms of distress. When badly infested they will die.
Put up in 30c. and 60c. packages, \$1.75 and \$5.00 tins, also 100-lb. air-tight bags—\$14.00. For sale by 4,600 dealers in Canada. If your dealer cannot supply you, write direct.

Royal Purple Laying Meal

We can supply you with Royal Purple Laying Meal with or without the Poultry Specific added in. Mr. T. L. Matheson, Inverness, Ontario, tells us that he fed Royal Purple Laying Meal to 600 pullets last year with the Royal Purple Poultry Specific and got an average of 74% production from the middle of December until the middle of March. He also states that he has received the largest production of eggs he has ever had during the twelve months he has been using Royal Purple Laying Meal, and that it keeps his poultry healthy during the entire season. If your dealer cannot supply you we will be pleased to quote you a price, freight paid to your station.

VIMLITE (formerly known as Vitalite) We are sole distributors for this wonderful vitamin product used for windows in poultry houses, barns, greenhouses, etc. It is made through the ultra-violet, growth rays from the sun that will not pass through ordinary glass. Write for descriptive circular.

We will be very pleased to send you one of our 32-page books with illustrations in colour, describing the common diseases of Stock and Poultry with particulars of the Royal Purple Poultry Specific for each, and details of all the different lines of feed we manufacture. It deals with 165 subjects of vital interest to every farmer and poultryman.

MARIE ANN BEST

The Lone Guest

Years pass so swiftly one hardly realizes how time fits along until a birthday reminds you the fifties are approaching or perhaps fifty has already passed into the land of yesterday. Have you had a tugging at your heart strings to go back to visit the town of your childhood days? Reminiscences make eyes dreamy and perhaps misty until the day comes when you really go.

But what is wrong? The little town is yours alright, but it has surely taken on a veneer of strangeness, which slowly conveys a lonely feeling. Strange people walk your streets, the children laugh and shout who unintentionally have no smile for you and oh, the blank feeling of looking for the old home to find it isn't there. A new bright windowed structure seems to want to welcome you but you hesitate to go in and a lump rises in your throat as memories crowd in with pictures of the past.

But it may be as you feel your worst, your eyes absent-mindedly rest on a lovely maple tree. It has grown to maturity and is flaunting cheerful exquisite autumn colors, while its leaves insistently whisper "Don't you remember me?" and through the haze of years comes the realization that this is the tree good old Dad and I planted when I was only ten, grown to maturity along with me.

The old gnarled oak is there too, the same as ever, time is kind to it. But the old elm is gone and brings a feeling, sad thought.

The reverie is broken by a voice from a passerby. "Well could this be any possible chance by my old school chum of long ago? Do you remember me?" and after a good while there appears from behind the folds of good natured increased weight and silvered hair the outline of a familiar face. A cordial invitation to come up to her old home for a sociable cup of tea when old days can be talked over, is given. Since the welcome is sincere loneliness melts away and the lone guest is lonely no longer.

Children Enjoy Surprises

The School Lunch
Sometimes it seems very difficult to keep up the appetite of the kiddies who find it necessary to take their lunch to school.

Here are a few suggestions.
Each child enjoys a hot cup of cocoa which can so easily be supplied if a vacuum bottle is supplied or it may be filled with hot soup.

A Good Lunch Box Salad

1 orange, 1 tbsp. cottage cheese, 1 tbsp. chopped fruit (figs, dates or raisins), one tbsp. ground nuts (pea-

nuts, almonds or walnuts) and lettuce. Peel the orange and cut the pulp in small pieces, draining it from all extra juice and removing all membrane. Mix orange pulp, cottage cheese (drained dry) and chopped fruit. Pack in glass jar or a jelly glass which has been lined with lettuce, cover with the ground nuts and put on a tight cover.

Sandwich Suggestions

Spread one slice of sandwich with orange marmalade, the other with cottage cheese or peanut butter.

Chop hard boiled eggs, moisten with lemon juice, season, spread over lettuce in a sandwich.

Mix chopped dates, raisins, dry figs and ground nuts with orange juice and a little cream. Spread generously on this slice of bread.

Slice a banana, marinate in lemon juice, spread on one bread slice, spread the other slice with honey and cream, mixed.

Mix ground carrot and celery and nuts with lemon juice and boiled dressing. Cut open a roll, remove some of the bread, fill with dressing and fit half together again.

Since winter is beginning to show its teeth and the warm days of fall are coming less and less frequently it seems hard to accustom ourselves to the cold and until we do become accustomed to it coughs and colds are frequent.

An old domestic remedy that has been successfully used for croup is the vapor from salt and vinegar. It seems to have the power of dissolving and loosening the tight membrane which has lodged in the throat. Heat a quart of strong vinegar to which a pint of salt is added, then saturate woolen cloths with the solution and held it to the patient's mouth. Keep the cloths hot constantly so that the vapor and heat is inhaled steadily.

Old Leather Furniture

Did you know that leather can be very successfully lacquered. It can be done in any of the new shades, perhaps true lacquer red looks the best for most purposes.

Have the furniture renovated and put into good firm shape, missing buttons replaced and all bags eliminated. Then take some mild brand of soap flakes and make a soda. Wash with a soft cloth. Dry carefully and apply some good vegetable oil such as linseed. When the leather has soaked up all the oil it is soft and pliable. Do not apply the lacquer until all the oil is absorbed.

Lacquers dry very quickly so work fast, allow it to run on rather than brushing as with ordinary paint.

It really gives you a new colorful set of furniture.

Three Killed As Plane Crashes and Burns

Harry E. Tegart, Air-Mail Pilot, of Tottenham, Ont., Jean McCall and Kathleen McCall of Inglewood Meet Instant Death When Aeroplane Crashes—Flames Burst Out as Machine Strikes Ground and Wreckage Becomes Inferno

Toronto, Ont.—Careening to earth from out grey sa., in a rolling, pitching, crazy course, a Pitcairn biplane carried three young people to horrible death by fire in North York Township at 4:25 Sunday afternoon.

The dead are:
Harry Egerton Tegart, aged 24, air-mail pilot, of Tottenham, Ont., and who on March 21 last saved the mail when his plane caught fire near Grimsby.

Joan McCall, aged 24, of Inglewood, Ont., teacher at Kitchener Park Public School, in Scarborough Township.
Kathleen McCall, 19, of Inglewood, sister of Joan, employee of Brock Securities Limited, 209 Bay Street.

Crashes 500 Feet

Never at great altitude in the half-hour's spin upon which Pilot Tegart took his two friends, the aeroplane is said to have started its death descent from a barrel-rolling stunt enacted 500 feet up.

From that height the machine, with its human cargo, pitched an erratic course to within about 75 feet of the ground, and then, in the language of descriptions given the police, took a steep bank, side-slipped and just "plopped" on its left side.

Simultaneously with the crash a sheet of flame shot from the engine at the front to the tail of the plane at the rear, its course being directed by the shape of the fuselage. In the next instant the craft and its human cargo were enveloped in flames from the oil, the gasoline and the body structure of the craft.

Roaring Inferno

The pile of wreckage became a roaring inferno, the blistering heat from which forced back the few people who rushed to the scene from near-by highways and prevented them from attempting a rescue. The human pyre had to be left to burn itself out.

The tragedy occurred on the Glendon farm, about half a mile from the Canadian Air Express airport. The

machine was owned by Walter Watson of Buffalo, head of the Aviation Consolidated, of Lake Placid, N.Y., and was down to Toronto by Watson's private pilot, W. MacLean, on Oct. 20. The machine was said to have been loaned to Tegart. The McCall sisters were his friends.

Bodies Recovered

The bodies were burned beyond recognition. They were recovered from the pile of debris late in the evening and removed to undertaking parlors, where the remains were viewed by Coroner W. G. McCormack.

No reason for the aeroplane's sudden descent, beyond that of "stunting," was advanced by police, militia officials, or the one or two eye-witnesses.

Flying Instructor Plays Stunt Pilot
"I haven't received all the facts yet but from what I have heard the pilot was playing the glady goat," declared Col. Douglas G. Joy, district inspector of civil aviation.

"I hope the newspapers will hammer home that stunting is the cause of virtually all aviation accidents such as this."

"In nine out of ten accidents in aviation the fault may be placed to stunting. There's nothing wrong with flying if it's done safely and sanely."

Col. Joy will preside at the official enquiry to be held into the crash.

Sunday School Lesson

November 16. Lesson VII—The Believing Centurion (A Gentle Who Faith Jesus Commended)—Matthew 8: 5-13. Golden Text—And they shall come from the east, and from the west, and from the north, and from the south, and shall sit down in the kingdom of God.—Luke 13: 29.

ANALYSIS

I. A GREAT NEED FELT, vs. 5, 6.
II. A GREAT FAITH RECOGNIZED, vs. 7-13.

INTRODUCTION—Jesus' ministry in Galilee appears to have lasted about two years, from December of the year A.D. 27 to November, A.D. 29. A great deal of intense and untiring activity was crowded into those two years, and also much of his teaching both by parables and otherwise. The gospel narrative tells us of the multitudes which thronged about him, or followed him from place to place, attracted by the freshness and power of his teaching and by the wonderful works of healing which he did. But even more interesting to us than the multitude are the individuals men and women, disciples and others, who meet him sometimes in the midst of the throng, more often in his hours apart, whose spiritual attitudes and needs were so much like our own—the fishermen by the Lake of Galilee, the mentally afflicted and the lepers who drew so heavily upon his compassionate tenderness, the paralytic borne by his impetuous friends, the "publican" drawn from the place of toll by the magnetic power of a new affection, the Pharisee not wholly insincere with his quibbling questions about custom and fashion, the followers John the Baptist, his own brothers, the Jewish magistrates disturbed by the desperate illness of his little daughter, the Canaanite woman in similar distress whose pitiful pretence that she was a Jewess Jesus put aside that he might minister more directly and fittingly to her own as well as to her daughter's need. Of special and extraordinary interest is this military officer whose character and whose faith in Jesus are so attractively presented in the lesson, before us.

I. A GREAT NEED FELT, vs. 5, 6.

Jesus was again in Capernaum, his home city (Matt. 4:13), where so many of his great works of healing had been done. The centurion, probably a Roman officer in the employ of Herod Antipas, had been an admirer of the Jewish people, and through them he came to know Jesus and to believe in him. It is very much to his credit that he thought so highly of his servant. Luke says that the servant "was dear unto him." Luke adds also that he did not himself presume to go to Jesus but "sent into him elders of the Jews," thinking perhaps that a Jewish teacher would be unwilling to consent to the request of a Gentile. He was to learn by what follows that the large human sympathy that was in the heart of Jesus, overstepping all barriers of race or nation, indeed the coming of this man in his need to Jesus was one of the very first indications of the power that his person and teaching were yet to gain over the Gentile world (see v. 11).

It is possible that the centurion may have known personally the nobleman whose son had been healed by Jesus, according to the story told in John 4: 46-54. He was held in high esteem by the Jews of Capernaum, who said to Jesus, "He is worthy that thou shouldst do this for him: for he loveth our nation and himself built us our synagogue (Luke 7: 3-5). It is interesting to learn that in recent times the ruins of a synagogue have been found at Tell-Hum, believed to be the site of the ancient Capernaum, and that an effort is being made to rebuild it.

The word "palsy" is an old English shorter form of the Greek "paralysis." It means the loss of power to move, whether wholly or partially. Since, in this case, the sufferer was "grievously tormented," it has been conjectured that the case was one of acute spinal meningitis. Luke adds that he was "at the point of death."

II. A GREAT FAITH RECOGNIZED, vs. 7-13.

So simple, so direct, and so great is this man's faith in the power of Jesus that he believes him able to heal by speaking the word only. He is, he says, not worthy that Jesus should come under his roof. "But only say the word and my servant shall be healed."

Moffatt renders verse 9 as follows: "For though I am a man under authority myself I have soldiers under me: I tell one man to go, and he goes, I tell another to come, and he comes, I tell my servant, 'Do this,' and he does it." Believing Jesus to be like himself under authority received from God he believes also that he has at his command unseen agencies and powers that will do his will. Compare Luke 7: 8. As a well-known modern writer puts it, "We see the wisdom of his faith beautifully shining out in the bluntness of the soldier."

Jesus is represented here as using a figure drawn from the ancient prophecies of Israel who conceived the glorious future age of salvation and universal friendship as inaugurated by a great feast of all good things. To it all people of the world would be invited, and in it the people of the past and the future would have equal shares and part. See Isaiah 25: 6-8; 26: 19; 35: 2-4; Daniel 7: 14. More than once Jesus saw in the coming to him of people either Jews or Gentiles, of other races and nations, the dawning of that new age. Compare Luke 13: 29 and John 12: 32-34.

Largest problems which the early Christian church had to solve was that of the admission of Gentiles on equal terms with Jews by the way of faith in Jesus Christ. At first there were individual cases received by special favor, or because of some extraordinary experience of "fine grace," later in unrestricted numbers through wide open doors in the missions of St.

Don't Worry About Vitamins

Of course, you need vitamins—and you can get them all in this breakfast: A glass of orange juice for Vitamin C—then a bowl of Shredded Wheat with whole milk for Vitamins A, B, D and E. A delicious breakfast, easily and quickly prepared and costs but a few cents. If you like hot dish, pour hot milk over the biscuits.

Lindbergh Tests Airport Lighting

Approves New System Which Constitutes Clear Trail for Flier

Schenectady, N.Y.—Col. Charles A. Lindbergh tested recently a new type of airport lighting designed by the General Electric Company and after four trial landings expressed unqualified approval of the innovation.

An odd feature of the lighting facilities was the fact that 2,500 feet of ribboned illumination was invisible from the ground and yet constituted a clear trail for the flier.

"The system is equally as good as the former flood-lighting of fields for night flying," Lindbergh said after he had completed the tests. "I believe it is the coming thing for airport lighting."

The submerged lights are heavy 100-watt lamps covered by thick glass plates. On top of each plate is a white rubber reflector which projects 15 inches into the air and deflects the light so that it appears to the aviator to be an uninterrupted line of light beneath the plane.

The reflectors fold down over the lamps as the plane lands and the wheels run over them without damage. They are set at 50-foot intervals.

Colonel Lindbergh flew a bird biplane with dual controls. Mrs. Lindbergh piloted the plane in the first flight and Lindbergh was at the controls.

QUALITY

Made of pure materials in modern sunlit factories. No expense spared to have it clean, wholesome and soft flavored.

WRIGLEY'S

is wrapped and sealed to keep it as good as when it leaves the factory. WRIGLEY'S is bound to be the best that men and machines can make.

The delicious peppermint flavor freshens the mouth and aids digestion.

A Silent Partner

TAKE a silent partner into your business.

One able and willing to stand by you and years when necessity arises.

One that will give you a certain fixed sum at a specified time—or bring you a regular income when you are no longer able to earn—or provide for those you love when you are no longer with them. Life Assurance will do all this for you—and more.

Royal Christenings

Water From the Jordan for Princess Margaret Rose—But the Ritual no Longer Causes the Trouble it Did Formerly

Elaborate preparations are always made for a Royal christening, and that of Princess Margaret Rose is no exception to the rule.

This is true even though the actual ceremony itself may be simple enough. Custom prescribes that when a little prince or princess is borne to the font the baptismal water should be brought from the River Jordan, in Palestine, and this alone involves a certain amount of planning.

Jordan water, of course, is supposed to have special virtues, and it was in this stream that Christ Himself was baptized by John the Baptist. It may be recalled as showing the way in which Jordan water is regarded even in modern times that after the baptism of Edward VII. at Windsor many of the princesses present sprinkled themselves with water from the font.

The ritual of baptism, though it is straightforward enough to-day, has given a certain amount of trouble at Royal baptisms in the past. Until the birth of Princess Margaret Rose no Royal baby had been born in Scotland for centuries. One of the last to be born there was James VI. of Scotland and I. of Great Britain and Ireland.

Font That Was Too Small
His mother, the ill-fated Mary Queen of Scots, wanted him to receive baptism according to the Catholic rites, which, in Britain, provided for the immersion of the baby, while the new Protestant practice was to pour water on the head or sprinkle the face.

Queen Elizabeth was a Protestant. Knowing that Mary was a Catholic, and knowing also that the infant Prince might one day sit on the English throne, she sent a gold font to Scotland for the christening. This font was made on the new Protestant model, which meant that it was too small to allow the baby to be immersed.

What was Mary to do? She dared not offend Elizabeth, so the font was used, much to Elizabeth's satisfaction. This meant that the Catholic rites could not be carried out completely.

There are many interesting superstitions attached to christenings. One of them, fairly general at one time, was to the effect that unless a child was carefully guarded and watched over before baptism the fairies might steal it from its cradle and put a "changeling" one of their own children in its place. Even to-day a Scots mother will sometimes tell a child who is misbehaving that it must have been "changed in its cradle." The reference, very often unconscious, is to the old superstition.

Do Brains Matter.

(An American professor claims to have proved that beauty and charm are more important to a woman than brains.)

Beautiful, lovely Helen of Troy, I've wonder'd again and again
If with your manners so winsome and coy

Went any sign of a brain?
Juliet, too, with her "cuddle-up" way,
Had she a ration of sense?
Judged from the things that she did, I should say
J. was exceedingly dense.

What of Delilah? A warmer, no doubt,
But lacking the wit of a mouse;
She was responsible (just think it out)
For Samson's destroying a house.

What girl, I ask you, would cut a man's hair?
Conduct like this is just rot.
If these are the habits of women
Who're fair,
Give me, please, one who is not

Beauty and charm may be all very well,
But whatever professor of science
I shall maintain their worth
And spell

Or a woman who's got it "up there,"
Pluck out the eyebrow and blacken the lash,
Use up the rouge by the cake—
What is the good if you still make a hash
Of, let us say, cooking a steak?

Necks that are swanlike and cheeks
Like the rose,
Teeth that are white as the pearls—
Sweet or later all charms such as these
Faded or fall out, dearest girl's,
Shun the psychologists, have a good think;

Love being blind, it is plain
Getting a husband's as easy as blink,
But keeping the brute requires
Brain!

Mendacity Made Visible

The drunk halper in front of an enormous stuffed terapon in a glass case. He stared at it for a minute or two in silence. Then he said: "The fellow who caught—hic—that fish is a—hic—liar!"—American Mutual Magazine.

Closed Game Preserve

The Thelon game sanctuary east of the Great Slave lake, which contains the last known herds of musk-oxen on the Canadian mainland, is closed to all hunters, both natives and white men.

UTTERLY WORN OUT

Women Weakened by Worry.

"I don't want to worry, but I can't help it," said a woman recently when told to take things easy and not worry. It is the duty of every woman to save her system. If she finds herself getting depressed; if she feels utterly worn out; worries over trifles and frequently has nervous headaches, she will be wise to realize her nervous system needs attention.

Starved nerves mean a breakdown. To feed the nerves you must build up the blood. To do this there is nothing to equal Dr. Williams' Pink Pills. These Pills not only enrich the blood but actually create new blood which feeds and strengthens the nerves and banishes the cause of nervous disorders.

Women cannot always rest when they should, but every woman can maintain her strength by the help of Dr. Williams' Pink Pills. Start taking these Pills now and see how soon improvement will show by increased energy, keen appetite, strong, steady nerves and robust health. These Pills are sold by medicine dealers or by mail, postpaid, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

First Aid in the Home

Children often scratch themselves with rusty nails and splinters. Squeeze the wound gently to make it bleed and carry away some of the germs. Apply diluted peroxide of iodine. If the child is healthy, keeping the wound clean and covered should be sufficient. If delicate or not in good health, it is wiser to show it to a doctor or trained nurse. Cleanliness and lack of fuss are better than over-emphasizing the seriousness. Fear does more harm than any other agent.

In the case of serious bleeding, prompt action is essential (write a nurse). Lie the patient flat and keep him absolutely still.

Bright red blood is arterial, and the arteries are like a hose. Pressure at any place nearer the heart will stop the flow. So apply a tourniquet, the making of which every parent should have learnt.

In the case of a vein, darker blood issues, and the fingers should be put on the wound and pressed on the vein to stop the bleeding. These measures are, of course, taken immediately while a doctor is being summoned with all speed.

Nose bleeding often occurs with growing children. Lie the patient flat, with the head a little lower than the body. Apply cold water to back of neck and bridge of nose. Gently plug nostrils with cotton-wool soaked in water containing a few drops of witch hazel.—Tit-Bits.

Science Succeeds

In Drowning Fish
Drowning a fish would seem to be a hopeless job.

Yet fish must have air, and when enough of it is not dissolved in the water where they live, they suffocate. This topic, says Science (New York), has been the subject of study in two German laboratories during the past few months. We read:

"The researchers were prompted by the fact that great numbers of fish died of suffocation under the thick ice produced by last winter, which was unusually severe in Europe; and scientists wanted to know, for both practical and theoretical purposes, just how much oxygen has to be dissolved in water in order to sustain fish life.

"Goldfish and carp became distressed, and finally died, when the oxygen in the water fell to a concentration of from four one-hundredths to one-tenth of one per cent. Whiting, perch and several other species of fish showed signs of distress at one-tenth of a per cent, and died when the concentration fell below eight one-hundredths of one per cent.

"The requirements of trout, earlier experiments showed, are higher. This active fish can get along on water containing from five-tenths to eight-tenths of one per cent. of oxygen, finds one-third that much insufficient, and dies if the oxygen falls below that."

Toy-Makers of Mexico

Mexican toy-makers travel the dusty highways with packs of merchandise on their backs to sell to the Indians on festival days. Their wares—usually animals or birds—are often grotesque and poorly made, but their bizarre qualities attract customers. Often they are fashioned from gourds, but at other times clay is used for the bodies and wire for the legs.

Gold Rush Veteran

Up along Rocky, Lightning and Williams creeks in the Cariboo district of British Columbia where the gold stampede of 1864 is still a vivid memory, Big Mouth Jack (above) who came from China as a boy and entered the gold country in 1865, worked 65 years to earn a stake which would take him back to China to live in luxury the rest of his days. Fortune, however, proved unkind and Big Mouth made only enough to live on. A few days ago the aged Chinese prospector, now 85, was a passenger on the Canadian Pacific liner Empress of Canada and on his way to end his days in the land of his ancestors. Members of the Chinese colonies of Williams Creek, Lightning Creek, Barkerville and Quesnel in the Cariboo district took up a collection which is sending Big Mouth back to China. Still strong at 85, Big Mouth lived for 65 years in the Cariboo district without a single trip to the outside. Arriving in Vancouver to board the liner for China he saw his first street cars and his first steamship, which he called "devil wagons" and shunned religiously.

Log-Chopping Is Revived As Popular Sport in States

From camp and country store word comes that wood-chopping is undergoing a revival in America. As a chore it is not so universal as it once was; but now men and boys keep on chopping for the love of it. Some are athletes who must keep their muscles fit, but mostly the choppers are ordinary people who learned to handle the axe because they had to and continue at it for fun. They sponsor contests and chop against each other for the honor of cutting through a log the quickest.

Chopping, the task, came here naturally. The sport of chopping, however, is an importation from Australia. When the Island Continent was more of a wilderness than it is to-day, strong axmen used to drive their bullock drays over many miles of rough bush tracks to pit their skill against each other; and spectators flocked to the contests. To-day even greater crowds and more spectators are brought together by motor vehicles. Crowds gather for the chopping contest at the Royal Agricultural Show at Sydney, and the men who take part are not only bushmen, weathered and rugged, but also business and professional men who took up the axe for exercise.

In the States the chopping contest, when first introduced, fared badly, but when the procedure was changed from one man at a time chopping against a stop-watch to a group of men chopping against each other, it became popular. The contests are a regular feature of Boy Scout programs; and one was staged at Cornell University at the fifth biennial conference of Scout executives. The forestry schools in several universities have adopted the idea, and at the University of Montana it is a regular event.

For boys a tree six to ten inches in diameter is chosen; for men, one twelve to sixteen inches. Each contestant has a length two feet, six inches long, uniform in size, mounted on chocks and braced for cutting.

KEEPING BABY LOVELY AND WELL

Some babies thrive from the hour of their birth while others make so little progress as to be the cause of much anxiety. As a rule it is the digestion that is at fault with these backward ones and they start to go ahead directly Baby's Own Tablets are made the corrective of their stomach and bowel troubles.

Baby's Own Tablets are specially designed for the use of babies and little children. They are absolutely safe and the mother can feel perfectly secure in giving them to even the most delicate child. They are a mild but thorough laxative which banish constipation and indigestion; break up colic and simple fevers and allay the pains which accompany the cutting of teeth. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Uses of Volcanic Dust

Volcanic dust is mainly used in the manufacture of cleansers, scouring powders, and abrasive soaps but lately, outside Canada, there has been an increasing demand for its use as an admixture in cement and plasters. Volcanic dust beds up to thirty feet thick are being worked near Swift Current, Saskatchewan. There are other beds in British Columbia.

The best-read person is the one who reads least of modern trash.

The Man She Thought Crooked

By DOUGLAS MALLOCH

You know the man she might have wed,
A right nice fellow, too;
And yet to him she shook her head
And then said "yes" to you.
And there are times you think about
That fellow now and then,
And wonder why she picked you out
Above all other men.

I don't know how it is with some,
But how it is with me,
And when those old-time visions come
I take a look and see:
I need a barber, that I know,
My clothes don't look so well;
And why she took me long ago
I'm dashed if I can tell.

And then I'm off to get a shave,
And see the taller man,
And for one evening I behave
About the best I can
In me a knight she used to see.
Although, of course, I'm not;
But now and then I try to be
The man she thought she got.

Indian Summer

A silken curtain veils the skies,
And half conceals from pensive eyes
The bronzing tokens of the fall;
A calmness broods upon the hills,
And summer's parting dream distills
A charming silence over all.

The stacks of corn, in brown array,
Stand waiting through the tranquil day,
Like tattered wigwags on the plain;
The tribes that find a shelter there
Are phantom peoples, forms of air;
And ghosts of vanished joy and pain.

At evening when the crimson crest
Of sunset passes down the West,
I hear the whispering host returning;
On far-off fields, by elm and oak,
I see the lights, I smell the smoke,
The campfires of the Past are burning.

—Vertus and Henry Van Dyke.

ACID CONDITION

the common cause of pain and discomfort after eating - -

GET RID of your dread of pain after eating. Eat without fear of "indigestion," sour stomach, disagreeable gas or headaches.

When your food ferments, "disagrees," lies like a lump in your stomach, it's a sign of too much acid. You need not resort to crude methods—take instead an anti-acid that will correct the condition. Phillips' Milk of Magnesia.

A spoonful of this pleasant-tasting, soothing fluid neutralizes many times its volume of acid. It restores the proper alkaline balance to an acid-soaked stomach and bowels—assists these organs to function as they should.

Phillips' Milk of Magnesia is what you need when a bad breath, coated tongue, headaches, nausea or biliousness indicates an over-acid condition. Take a spoonful today and for several days and see how it sweetens the system. You won't be nearly so liable to colds or sickness. All drug stores—in 50c bottles.

Genuine Milk of Magnesia is always a liquid—never a tablet. Look for the name Phillips on wrapper and bottle.

PHILLIPS' MILK OF MAGNESIA

WHY FAT MEN STAY FAT

"The trouble with me, and I guess this applies to 90 out of every 100 men who are putting on weight, I didn't have the energy or 'pep' to keep it off. Lost all interest in any healthy activity and just based around accumulating the old pounds, until I got that 'Kruschen feeling'."

Start taking Kruschen Salts—that's the common-sense way to reduce—but don't take them with the idea that they possess reducing qualities in themselves.

This is what they do—they clean out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape, and fill you with vigor and tireless energy.

As a result, instead of planting yourself in an easy chair every free moment and letting flabby fat accumulate, you feel an urge for activity that keeps you moving around doing the things you've always wanted to do and things you'd love to keep you in good condition.

Kruschen Salts are the up-to-date Fountain of Youth. Take one-half teaspoon in a glass of hot water to-morrow morning and every morning—be careful of the foods you eat—take regular moderate exercise—then watch the pounds slide off.

Before Her Baby Came

"I have used several bottles of Lydia E. Pinkham's Vegetable Compound and find it helps me wonderfully, especially before childbirth. I have five lovely children. After my last baby came I had a miserable pain in my right side so I bought another bottle of the Compound and I feel fine now. I work outside during the fruit season in addition to my housework."—Mrs. Charles Slingerland, R.R. #4, St. Catharines, Ontario.

Sargol may be obtained in MILL-YARD'S DRUG STORE ONLY.

On Friday night of this week the biggest dance of the fall season will be held in the Community Hall, Beamsville, under the auspices of the West Lincoln Branch of the Canadian Legion. Gilbert Watson and his famous radio broadcasting dance orchestra of Toronto will supply the music and the in itself should prove a big attraction to the dance lovers of the whole district. This dance is being held to raise funds for the relief fund of the Legion so that they might take care of their less fortunate comrades. Admission is only one dollar and tickets can be secured from any member of the Legion.

I. O. D. E.

Owing to Thanksgiving Day coming on November 11th, the I.O.D.E. Literary will be held on Wednesday afternoon. The Canadian Authors to be taken up will be Campbell Scott and Maude Dunham Book—"The Trail of the Conestoga".

"The Trail of the Conestoga" is a book of special interest to Canadians and tells of the Pioneer Mennonite people, giving a real insight into their characters and mode of living. The characters in the book actually live and the happenings occurred in the "Freem Schacht" at that time.

Mrs. Gibbs will play.

Keeping Together

Jim was on the road most of the week and his constant moving made correspondence difficult. But he and his fiancée saw the way out—calling each other regularly by Long Distance. Now they never feel far away from each other.

NEWS FLASHES FROM LAKE LODGE

Last Wednesday, Lake Lodge Second were victorious over Ridley College. The score was 28-2. The play was not as one-sided as the score would indicate, but Lake Lodge was the superior team throughout the play. Paddon was the outstanding player for the winners, scoring two touchdowns and making some nice runs. Owen, Johnston and Barrow also made successful tries. Of these, Long converted one, and also kicked two dead points. In the last period, Ridley scored a rouge and a dead point.

On Halloween, one of the parades supplied Canada Dry and Marshmallows, and Mr. Barrow kindly cancelled Preparation for the evening. A good time was had by all, especially the juniors.

Captain John Bonnell will be out of Rugby for the remainder of the season, with a broken finger. This is a great loss to the team, as John is a great kicker, and one of the first broken field runners on the team. His place at left half has been taken by Owen.

Barrow's place at left half has been taken by Owen. Two of Lake Lodge team are drilling hard for their respective games on next Wednesday. "B" team are playing Ridley C squad tomorrow, while the second game of the afternoon, Lake "C" team play Ridley D squad. "C" team is captained by Ed Hoover, the other by McDermid. Ed Hoover, star flying wing will not be able to play, owing to a sprained ankle. Both games are at Lake Lodge, the first starting at two o'clock sharp; the first game of the second game will be as soon after three as is possible.

Grape Yield is Increased by Use Of Fertilizer

Increasing yields of grapes through the use of fertilizer is a matter in which many growers throughout the Niagara district are interested. Studies of the effects of the different fertilizers upon vigor of vine growth, yield and quality of fruit, are being undertaken in the district and this season a number of field demonstrations with fertilizers were carried out

Don't Put It Off!

WHEN fire breaks out it is too late to avert the loss of valuable papers locked up in a drawer in your office or home.

The cost of protection is far less than the expense of replacing one document—provided it can be replaced.

Don't put off renting a Safety Deposit Box until it is too late. For two cents a day you can buy protection.

The Royal Bank of Canada

Grimsby Branch - C. D. Wells, Manager

on vineyards, under the supervision of the chemistry department of the Ontario Agriculture College. It was not expected that a single season's application of fertilizer would show any very marked results, and the fact that grapes were generally a good crop throughout the district was also a factor in lessening the contrast between fertilized and unfertilized vines.

Profits Higher

However, fertilizer test on the vineyard of Hillard Gibson, on the Mountain road, above Grimsby, showed a very profitable increase this season. This test, which was supervised by G. R. Snyder of the O.A.C. department of chemistry, consisted of three plots of one-tenth acre each. On one plot no fertilizer was applied; on the second Chilean nitrate of soda was applied at the rate of 200 pounds per acre; on the third 0-14-6 at the rate of 400 pounds per acre and Chilean nitrate 200 pounds per acre. The whole vineyard had received a light dressing of manure in the early spring. From the check plot

Social and Personal

W. T. McNair, of Simcoe, spent the week-end in town.

Messrs. A. Gillespie and D. Carruthers, spent the week-end in Cayuga.

Mrs. George Wood has returned after spending two weeks with friends at Ingersoll and Aylmer.

Mrs. B. Calder, of Hamilton, has returned to her home after spending several days with Mr. and Mrs. A. R. Hayhoe.

Mr. and Mrs. George Kammacher, of Port Sydney, are spending a week's vacation with Mr. and Mrs. Geo. Kammacher, Kild Ave.

Mr. and Mrs. G. W. Crittenden and daughter, Miss Mae Crittenden have returned from an enjoyable visit with friends in Michigan.

Mr. and Mrs. W. Buskin have rented the Anderson property, 43 Main St. East, having sold their property in North Grimsby.

About thirty friends gathered at the home of Mrs. A. Smye, Mountain St., and paid her a surprise visit on the occasion of her birthday. Games and dancing provided a very enjoyable evening.

Friends of Mr. H. B. Metcalfe will be glad to learn that he is progressing favorably after a mild attack of typhoid fever. It will, however, be a week or two before he is able to return to work.

Personal and Social

Here and There

Asbestos production in Canada during 1929 set up a new high record, according to the final revised figures of the Bureau of Statistics. Shipments in 1929 amounted to 206,655 tons, valued at \$12,172,311, an increase of 12.1% in quantity and 17% in value as compared with the previous year. The average price received by the operators was \$45.44 per ton, compared with \$41.16 the previous year.

Nipigon trout, known all over the continent as the gamest of game fish, are coming into the spotlight again according to reports from the famous Ontario resort where the annual contest for the largest speckled trout is now in full swing and will continue until September 14. The best entry to date is a 54-lb. fish, measuring 22 inches in length and 14 in girth taken with a single spinner with fly, on a 916-foot rod, by Edmund Stalter, of Paterson, N. J., July 23.

East and West, Orient and Occident, will meet in the British Empire Piping Competition, one of the most important of the new features to be introduced at this year's Highland Gathering and Scottish Music Festival to be held at Banff at the end of August. Pipe-Majors John Clark and E. L. Collins of the Royal Scots Regiment of Scotland, of which Princess Mary is Colonel-in-Chief, will come from the British Isles, while Pipe-Major W. C. MacKie of the Scottish Company of volunteers is on his way to Banff from Hong-Kong.

Prospects for increased earnings during the fall months are good and directors of the Canadian Pacific Railway have no intention of reducing the dividend, said E. W. Beatty, chairman and president of the company, recently in reply to rumors that the dividend might be cut.

BOY SCOUTS
ASSOCIATION

First Grimsby Troop

A meeting was held on Wednesday last, Friday being Halloween. A paper chase was held the trail leading over the mountain. Over the week-end eight boys went to camp on the Snipe Farm on the mountain. It was very cold but the boys had a good time.

The boys are going to collect newspapers and sell them for the troop fund so all having old news papers please keep them and the boys will be around and collect them.

It is expected that the executive Secretary for the Hamilton District will attend the next meeting so all the committee are asked to attend.

Church parade is to be held on Sunday evening to the Trinity United Church. All boys are expected to attend.

Gets Ten Days
For Driving Auto
While Drunk

Joe Dooley of St. Catharines was sentenced on Monday at the Police Court to ten days for being drunk in charge of an automobile, and in the afternoon to receive six months for discharging firearms. The terms will run concurrently. The former charge is the outcome of an automobile accident, and the latter of a shooting fracas at Thorold.

Early Sunday morning, it is claimed, Dooley drove to the home of Mrs. Edward Riding, Thorold, and fired a shot

Rebekah Lodge
Installs Officers

On Tuesday evening October 28th, the annual installation of officers of the Rebekah Lodge took place.

At 7 o'clock a banquet was held with the usual toasts. Following the banquet a short program was given including a recitation by Miss Mary Reid and a piano solo by Lyle Gilmore.

A presentation of a jewel was made to the retiring Noble Grand, Sister Cloughley by the District Deputy President, Sister Pearl Madden. Noble Grand Sister Gilmore presented a handsome silk cushion and Sister Morrison was presented with a past Grand's collar by Sister Violet Pearce on behalf of Mr. Morrison. The retiring Noble Grand Sister Cloughley was the recipient of a large box of chocolates.

The Noble Grand called on the following: District Deputy President Past Grand Master Burns, Assembly Secretary Sister Violet Pearce, Past President Sister Margaret Taylor and others who spoke briefly on the welfare of the Order.

The officers for the ensuing year installed by the District Deputy President, Sister Pearl Madden and her installing Board were: Noble Grand Sister Alice Gilmore, Vice Grand Sister E. Grier Recording Grand, Sister Ida A. Mabey, Financing Sec'y Sister Mae Crittenden; Treasurer Sister Edna Pettit, Wardens Sister Ada Thiel, Conductor, Sister Christina Strobel, Chaplain Sister Margaret Pearce, Inside Guardian, Sister Jean McKeazie, Outside Guardian Sister D. Wheeler, Right Supporter to Noble Grand, Sister Elsie Hughes, Left Supporter to Noble Grand, Sister Jessie Greenwood, Right Supporter to Vice Grand Sister Catherine Grace, Left Supporter to Vice Grand Sister Worsley, Manist Sister Ruby Merritt.

Concert and Chicken
Supper at Vineland

A very successful concert was presented on Thursday night at Vineland Station United Church following a chicken supper. A number of St. Catharines people participated in the program. B. Broughton, a favorite everywhere, pleased with his vocal selections. Miss Pearl Dawdy with her fine contralto voice, delighted her hearers, and Owen Evans, the Welsh bard, captured the crowd with his baritone solos and especially one sung in the Welsh language, Fred R. Foley, the well known reader, was in merry mood with a generous supply of selections, ranging from grave to gay and from witty to sublime. Rev. Orr Bennett was chairman and the local artist that added to the pleasure of the entertainment were Mrs. H. Fluhrer and Miss Mabel Eggleston at the piano, and Ernest Culp with his violin. The festival was a great success in every respect.

Pheasant Hen
Birds Numerous
Many found Dead

As an aftermath of pheasant shooting day a large number of hen birds have been found dead in the fields throughout the district, an indication that the slaughter of hens was fully as great as of cock birds. This would indicate that the hunters had difficulty in distinguishing between the male and female birds, discovering their error after they had shot the bird and then, because of the law prohibiting the shooting of hen birds, the hunters left their victims lying on the ground.

1750 Receiving
Pension in Hamilton

The Ontario old-age pensions act closed its first year of operation. During that time the Hamilton old-age pensions board has received and considered 1873 applications for pensions. Of these only 123 were refused, in most cases because the applicants were not in receipt of income in excess of the amount by the act. Since November 1, 1929, a total of 135 Hamilton pensioners have died.

This leaves 1615 pensioners here, 80 of whom are in the Home for the Aged and Infirm, 33 in the House of Providence, Dundas, and about in St. Peter's. There are 1452 drawing full home. There are 120 per month and 163 pensions of varying lesser amounts, according to their private income or money in the bank. The city pays 20 percent of all pensions, the province 30 percent, and the Dominion government 50 per cent.

ANNOUNCEMENT

The Donna Beauty Shoppe will commence operations NOVEMBER 1st, in the New Mansion Inn under the direction of MISS DONNA WELLS. Phone 320

through the front window, the bullet striking a lamp on a table and lighting the kitchen floor, a few feet above the head of George Riding, son of Mrs. Riding, who was sleeping on a couch.

Dooley blamed Mrs. Riding for interfering in his proposed marriage to a widow. He claimed he was not shooting with intent to kill, but only to scare Mrs. Riding.

Mighty, Powerful Antiseptic Prescription Stops Itching Instantly, and By It Use Ulcers, Boils and Abscesses That Discharge Are Quickly Healed

Now that tens of thousands know that Moore's Emerald Oil helps to reduce ugly, dangerous varicose veins, we want them to know that this wonderfully effective agent will dry up eczema eruptions in a few days and cause the scales to drop off and disappear.

It acts the same way with any skin disease, such as barbers' itch, salt rheum, redness and inflammatory skin troubles.

So powerful and penetrating is Moore's Emerald Oil that abscesses, boils, ulcers and open sores are healed in a few days. Moore's Emerald Oil is not a patent medicine, but is a surgeon's prescription that for years has been successfully used. T. L. Dymond's and all leading druggists dispense Moore's Emerald Oil.

PLANT FRUITS IN FALL

Fall is an ideal time to plant many of the fruits, for they have a chance to become established in the soil and are ready to start growth early in spring. This puts them weeks ahead of those fruits set out in spring. After all, no fruit you could buy could taste half so delicious as that which you grow on your grounds, so why not take advantage of this extra season—plant this fall and let Nature work for you all winter. Then, too, there is none of the rush in fall that there is in spring, for the planting season is almost twice as long.

Just a little patch of strawberries will provide quite a supply of this delicious fruit. A hedge of blackberries or raspberries across the back of the lot takes up little room and you will be surprised with the amount of berries you can harvest. If a little care is given to the plants, Grapes are useful both for training over an ornamental lattice or arbor, or when planted as a screen. At the same time they will reward you each year, almost without fail, with an ample supply of fruits for home use.

By giving a little thought to the seasons, you can, in a very little space, provide a complete sequence of fruit from the first of the cherries through the apple and pear seasons in the fall. Plan now to plant whatever varieties are adapted to fall planting in your locality.

AUCTION SALE

Unreserved Auction Sale of Horses, Implements, Furniture, Etc.
The Undersigned, has instructed Mr. Pettigrew, Auctioneer to sell by PUBLIC AUCTION

on the premises at 136 Maple Avenue in the town of Grimsby, on WEDNESDAY, NOVEMBER 12th

Dread Pneumonia Not Known In the Distant Northland

Frozen Beans, Black Bread and Tea Make Ideal Breakfast,
Doctor Claims

Sydney, N.S.—The simplicity and satisfaction of frozen beans for breakfast, the solid comfort of deerkin-covered beds of ice, the Eskimo's joy in the "makings of Spring"—these and a score of other characteristics of the Arctic combine to give a picture of the white man's life in the north, as conveyed in letters reaching Sydney from Dr. Hugh A. Stuart, who has completed a year of service in the land of midnight sunshine.

His communication reached Sydney by the government ship Beothic, on which he returned to his station at Pangnirtung, Baffin Land, from Pond's Inlet, where he had gone—covering the 550 miles by dog-team in 52 days—in order to examine en route all the natives on the east coast of Baffin Land to determine the prevalence of tuberculosis.

Leaving Pangnirtung, Feb. 14, with dog-team and native, Dr. Stuart was forced to return a week later, when his tent blown to ribbons by a blizzard. For two days and nights he was forced to huddle under the remains. The second trip, however, begun on March 14 and ending on May 15, was uneventful. It was the second time a through run from Pangnirtung to Pond's Inlet had been made by a white man.

"When travelling by dog-team with my natives," says Dr. Stuart, "I use merely a silk tent at night for sleeping accommodation. Tanned seal-skins are placed on the floor to keep the snow from wetting our deerkin blankets and on top of these we put our sleeping bags.

"The sleeping bag is an excellent bit of Arctic equipment—made of heavy khaki stuffed with eiderdown. The only indication of cold is that you usually have to break away the ice that has frozen all round the small aperture through which you have been breathing.

"On awakening in the morning the small kerosene pump stove is lighted and with its strong heat the interior of the small tent is oven-like in a few minutes.

"Breakfast usually consists of heated-up beans which have been carried, already cooked, frozen in small patties. The beans contain plenty of fat and molasses so they readily heat up. This with black tea and pilot biscuit, makes a simple and satisfying basis for the day.

"It is one of the remarkable things about this country, that in spite of the extraordinary exposure to cold, no one ever gets pneumonia.... the climate, despite the rigors, is an excellent one for good health.

"On December 21st the sun at Pangnirtung just shows as a red disk, and then sinks again. This is the shortest day. However, despite the fact that the sun is below the horizon, there is still enough twilight to enable us to travel for a few hours.

"Conversely, in the summer time on June 21st the sun does not set at all. Here at Pond's Inlet, which is considerably farther north than in Pangnirtung, the sun did not set from May 26th till July 23rd—round and round in the sky it travelled in an endless orbit. During the day the sun is quite near and its rays are hot. At night, although it still shines, it is on the other side of the earth, so the heat emanating from it is negligible.

"This would be an ideal country for a sun-worshiper. It is a great sight to see the returning 'friend' in the winter and although it is only a red disc without heat it brings promise of sunnier and warmer days to come.

"The Eskimos have an apt and impressive terminology for their seasons. They do not jump abruptly from one season to another, but instead intervene a 'makings of a season' between. The 'makings of Spring' is a splendid time of year—that is when the sun rises higher and higher in the heavens and develops signs of being a centre of heat. The young seals are being born in their cozy igloos and the older seals are coming up through their holes in the ice to sun themselves. Here and there along the land, snow is melting sufficiently to form small rivulets. This is the time of year for travelling; and it is a joy indeed. Dogfaced is plentiful—young seals on the ice—days are long and warm and the bone-runners of the romantic run easily over the snow.

"The days soon lengthen—so that on May 26th (at Pond's Inlet) a little later than at Pangnirtung—the sun no longer sets. However, in the spring, so do they rapidly shorten same fashion that the days lengthen in the fall and now each day can be seen visibly shorter than the previous one."

tion must receive a definite answer. The important thing is to answer the problem and be able to defend your answer. Such a response as "We'd all get rescued in time" or "I don't know" would score a big fat zero. In other words, Edison's boy genius had to be able to make up his mind. He also had to display some ingenuity.

One of the questions in the Edison test last year was of the same sort. How would you answer this one: "If you were to inherit \$1,000,000 within the next year, what would you do with it?"

Probably there are as many correct answers to that question as there are dollars mentioned. But any answer given would probably satisfy the mind of the wizard—can the boy make a plan without taking a week to think it over?

Can such things be measured? Psychologists say yes, although they admit that the way has not been perfected so far. Perhaps Edison's test questions are a long step in the right direction. Only time, and the final success or failure of his scholarship winners, will prove that to the satisfaction of cold science.

Other steps have been taken by psychologists, and are now being tried out in laboratories on all sorts of people, good and bad. Some are giving excellent results; some not so good.

The following questions, for example, are not at all what they seem to be—but suppose you try them first: get some friend to take them, but don't tell him about the joker between the lines. It is only necessary to underline the answer to each question.

1. Are you ever rude to members of your family? Yes. No.
2. Are you always on time for your appointments? Yes. No.
3. Are you broad-minded? Yes. No.
4. Have you ever laughed at another person's misfortune, however slight? Yes. No.

5. If a ticket agent gave you 10 cents too much change, would you miss a train to return it? Yes. No.
6. If a telephone operator gave you the number, and then returned your nickel by mistake, would you drop it back in the box? Yes. No.

7. Do you always pick up papers you see strewn carelessly about on the sidewalk? Yes. No.
8. If you like classical music on the radio and your wife, or husband, likes jazz, do you always play the jazz? Yes. No.

9. Do you always pay for personal calls you make on the office telephone? Yes. No.
10. Do you always return borrowed books within two weeks? Yes. No.

Questions like these are being used by psychologists to test the character of children, but not to find out whether they would actually do these things. If all the questions were answered "yes" with the exception of number 3 and number 4, then the child would be judged "a pious fraud." It is seldom, indeed, that anyone is so perfect.

Evolution is Making Gorillas More Like Men, Says Expert

That the African gorilla is becoming more like man than it once was, an example of converging instead of diverging evolution so that the similarities of man and gorilla of which many evolutionists make much may be partly accidental, is a conclusion in the anthropological review, *Human Biology*, by Dr. Adolph H. Schultz, of Johns Hopkins University, in Baltimore, as a result of many detailed studies of the body forms of man and his closer relatives among apes and monkeys. The evolutionary stem which was to lead to man split off from the main stem of the apes and monkeys. Dr. Schultz' diagram assumes, very long ago, in which conclusion the Baltimore anatomist apparently agrees with the widely-quoted views of Dr. Henry Fairfield Osborn, of New York City. Only a short time after this original split into a monkey stem and a man-and-ape stem, the latter stem split again into one line which became that of man's ancestry and another line which led to the three man-like apes—the gorilla, the chimpanzee, and the orangutan. The creatures belonging to this ancestral stem of man were characterized from the beginning, Dr. Schultz believes, by living on the ground and by walking on two feet. The ape stem, on the other hand, included creatures partly tree-living and walking on four feet. The modern habit of gorillas, at least at times, to walk on two feet much as men do, Dr. Schultz apparently regards as one of the characteristics in which some obscure evolutionary force is moulding these largest of apes into more and more man-like form.

Here is another test where the "nigger in the woodpile" is more carefully hidden.

Read the following list of 10 books and authors carefully and indicate which books you have read. Be sure to include only those you have actually read, not those you have merely heard discussed:

1. Charles Dickens—*Oliver Twist*. Yes. No.
2. Ernest Hemingway—*Parewell to Arms*. Yes. No.
3. Rer. Arthur Stowe—*Tree of Life*. Yes. No.
4. Mrs. Kaskell—*Cranford*. Yes. No.
5. Clyde Wilson—*Romance of Architecture*. Yes. No.
6. E. M. Hull—*The Sheik*. Yes. No.
7. Norman Douglas—*Sensu Wind*. Yes. No.
8. Robert Stevens—*The Vanper*. Yes. No.
9. Lieut. Percival Oaden—*Expionage*. Yes. No.
10. Leo Tolstol—*Anna Karenina*. Yes. No.

Perhaps you feel discouraged because you have had to put "no" after so many titles. Don't worry! It works the other way. The person who answers "yes" to too many has given himself away as one with extraordinary poor memory or as a deliberate deceiver, because many of the titles belong to books that have never been written. Of course you have never read them! Numbers 3, 5, 8 and 9 are the false titles.

Persistence is another quality that psychologists have found definite means of measuring. In fact, this is much more easily tested than honesty. Just give a person a particularly long and tedious task like the copying of a large table of figures, or covering in longhand the names in a telephone book. Time him, and see whether he keeps up an even rate, or whether he soon slows down and begins to look out of the window. He may even give it up after a short time.

Some psychologists believe that the chief value of the crossword puzzle is a test of persistence. Really, any sort of intricate puzzle, either mechanical or mental, is excellent.

Salada Orange Pekoe has

Whipping Posts May Again Be Utilized

Chairman of U.S. Law Enforcement Bureau Advocates Flogging of Racketeers

The suggestion of George W. Wickens, Chairman of President Hoover's Law Enforcement Commission, of the use of flogging in the war against banditry and racketeering recalls the days when this method of punishing criminals was widely employed. It was prescribed as a punishment for crime in the Mosaic law under the doctrine of "an eye for an eye, a tooth for a tooth," and was used quite generally until about the beginning of the nineteenth century.

About that time imprisonment began to be gradually substituted for whipping. In this country Delaware still employs flogging as a punishment for about twenty-five offences, while in Maryland it is used on wife-beaters. Flogging is still employed in Great Britain, Canada and some Continental and Asiatic countries.

Whipping as a punishment for crime was legalized in Delaware in 1717. Ear-chopping also went along with it. In 1789 a man convicted of felonious assault was sentenced to stand in the pillory for four hours with both ears nailed to it, and "before he be taken down from the same he shall have both his ears cut off close to his head." At that time also prisoners who had been whipped were branded.

In ancient Rome a citizen could not be scourged, it being considered an infamous form of punishment, though slaves were beaten with rods. In medieval England, in the same way, the whip could not be used on the freeman, but was reserved for the villain. In the Saxon period whipping was the ordinary punishment for offences, great or small. In the reign of Henry VIII, was passed—in 1530—the famous whipping act, directing that vagrants be carried to some market town or other place "and there tied to the end of cart naked and beaten with whips throughout such market town till the body shall be bloody."

Flogging was legally prohibited in Scotland in 1860, and though it was never formally abolished in England it was greatly reduced through the method of fixing specific penalties to specific crimes by acts of Parliament.

Modern Footwear Glitters With Gems

The Longer the Skirt, the More Elaborate the Evening Shoe

"Rings on her fingers and bells on her toes" is the evensong of the modern maid. From head to foot, and especially to foot, she glitters and sparkles in the electric light of the evening like newly fallen snow in brilliant winter sunlight. The less one sees of feet, it seems, the more decorative do they become.

The newest evening slippers, made of rhinestones and imitation rubies, emeralds or sapphires, would have looked garish on a damsel with her skirts just below her knees. But when skirts go to lengths undreamed of, such footwear, twinkling tantalizingly among the folds of satin or velvet, seems the twentieth-century equivalent of Cinderella's glass slipper.

Jewelers-Turn-Shoemakers—High of heel and low of vamp are they, and very ethereal looking, more like a dew-spangled cobweb than anything so mundane as a shoe. For there is nothing to these slippers except the soles and a lacework of brilliants. Mending them would be work for the jeweler rather than the shoemaker.

For the lady who likes to surround herself with an aura of Oriental splendor and mystery, such slippers as those worn by Fatima and designed to enslave the heart and imagination of her fierce Bluebeard will appeal. Made of brocade in Oriental colors, and the toes turned up in the least suspicion of a point give them a glamour all of their own.

The Modern Grecian Sandal—If your new evening gown is one of those that designers parloined from the days of ancient Greece, you should buy a pair of the new Grecian sandals to wear with it. Our impression is that the original Grecian sandal was low of heel. If we are correct, then, these new slippers have departed from the exact style of their progenitors, for their heels are very high and very slim and very graceful. The vamp and heel are made of the narrowest strips of gold or silver. In fact, these slippers are little more than a heel and sole held on by kid straps. Here is another piece of footwear designed for the days of 1931, when feet and ankles have become as ornamental as of old.

The man who boasts of having an "open mind" often mistakes a vacancy

what to do with your money after you have done something else with it.

Vick—"If you spend so much time with yourself you won't have anything laid aside for a rainy day."
Slick—"Won't, eh? My desk is simply loaded down with work I've laid aside for a rainy day."

Test Personality By Trick Questions

Psychologists Discover that
Fright Distracts Attention
Easier than
Anger

When Edison made his latest invention, that puzzling question which he first tried on his 49 brightest boy candidates for coveted Edison scholarships, he was really bent on testing character.

Here is the way the question ran: "You are the head of an expedition which has come to grief in the desert. There is no food and water left to enable three people to get to the nearest outpost of civilization. The best must perish. Your companions are:

1. A brilliant scientist 60 years old.
2. Two half-breed guides, ages 55 and 52.
3. The scientist's wife—interested mainly in society matrons—age 39.
4. Her little son, age 6.
5. The girl you are engaged to marry.
6. Your best friend, a young man of your own age who has shown great promise in the field of science.
7. Yourself.

"Which would you choose to live and which to die? Give your reasons."

Psychologists say that there is no one best answer to such a test query. Probably no two scientists would answer alike.

But to score 100 per cent, the ques-

Canadian Canners Complimented on Fine Exhibit

Hon. G. Howard Ferguson, premier of Ontario, who is at present in England studying the markets for the purpose of increasing the sale of Ontario produce, visited the Leicester fruit show. Mr. Ferguson was evidently greatly impressed with the fine showing of Canadian exhibit, so much so that he was interested enough to send the following cable to Canadian Canners:
"Visited Leicester fruit show yesterday and saw your exhibit. Warm congratulations on your splendid display."
W. R. Drynan, general manager of the Canadian Canners, in commenting on this message, stated that their goods were growing in popularity in Great Britain and that their sales were increasing, and that with the close cooperation now being given by governments, the outlook for future business was most promising.

Company Must Remove Tracks Appeals Judgment

Niagara, St. Catharines and Toronto Railway appealed to first divisional court at Osgoode hall on Friday against a judgment by Justice Garrow in action brought against it by the town of Merritt, in which his lordship held that the franchise agreement of July 23, 1914, having terminated on July 23, 1929, the company had no right to maintain its tracks, poles and wires on the streets of Merritt.
Justice Garrow issued an injunction on May 31 last restraining the company from operating street cars on the streets of Merritt after January 1, 1931, on which day the company must commence to remove its tracks, poles and wires.
The right was reserved for the town to sue for damages should the defendant continue to operate a service after January next.

Poultry to be Sold by Grades Same as Eggs

Poultry in future will be sold by grades, much as eggs are sold now, according to an agreement between wholesale poultry dealers and the Dominion department of agriculture.
The statement issued by the department in which the agreement is announced classes the agreement as one of the most important developments in the poultry industry in many years. It points out that the farmers of Canada will benefit, as by grade-feeding and properly finishing their poultry market, they may obtain as much as from 70 to 75 cents more on one bird.
The manager of the poultry department of a large Hamilton firm stated that the proposed scheme would not result in any increased price to the consumer. It would simply mean that the housewife who buys a chicken or a goose will buy according to grade, and will be sure of what she is getting. The agreement, if carried out, will prevent a great deal of poor quality poultry being placed on the market.
This action grew out of a series of conferences held in Toronto between representatives of the leading wholesale buyers of poultry and officials of the Dominion department of Agriculture. Hon. Robert Weir, minister of the department, announced that an agreement had been reached on the part of the buyers to recognize government grades as the standard for trading, and the establishment of substantial price differentials between classes and grades.
"The agreement marks one of the most important developments in the poultry industry in many years," says a statement issued by the department of agriculture.

Police Chief at Thorold Wedded

Thorold efficient Chief of Police and one of the town's most popular and highly respected business men were united in marriage Saturday afternoon, when Thomas Marshall, eldest daughter of Mr. and Mrs. Thomas Shelton, Nottingham, England, in Westminster Church, St. Catharines, the ceremony being performed by the Rev. A. W. Thompson.

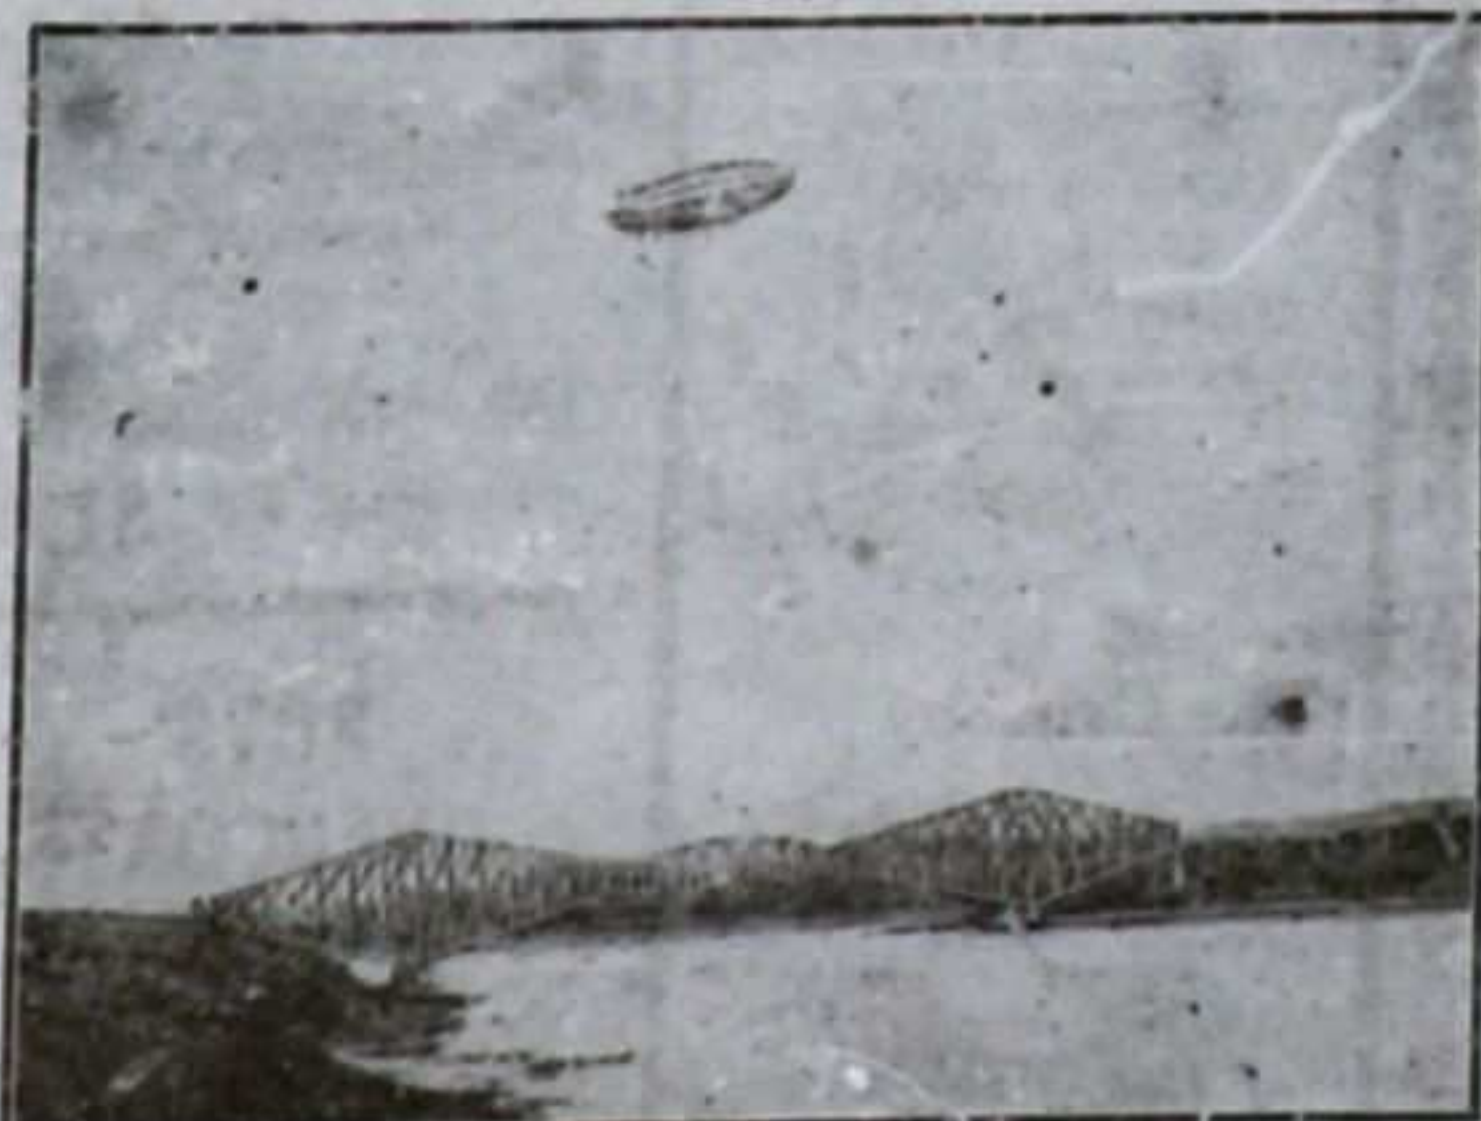

Milord is Served

The policeman entered the cafe and with great dignity announced to a man at one of the tables, "Your car awaits without."
"Without what?" retorted the rather loud-mouthed gentleman.
"Without lights," said the policeman. "Your name and address, please." (Vancouver Province.)

TITAN SALUTES TITAN

R-100, the world's greatest airship, passes over the Quebec Bridge, on its way up the historic St. Lawrence to Montreal. The daring imagination and skill of man has conceived nothing mightier than these two feats, the gigantic dirigible and one of the largest and most spectacular pieces of engineering in the world. Transatlantic liners pass easily under the bridge, which links the Canadian National Railway lines on the south shore of the St. Lawrence with those on the north, but the R-100 was one that went overhead.

New Canada-Built Equipment

FOLLOWING its policy of having as much as possible of its new equipment constructed by its own forces, the Canadian National Railways this year have completed the construction of two hundred forty-ton refrigerator cars, required for its increasing freight service, in addition to another two hundred which were built by the Eastern Car Company. One hundred each of the new cars were constructed in the Company's own shops at London, Ontario and Winnipeg, Manitoba, and these contain many new features of car construction which are being developed by the Canadian National for the first time.

Fined for Having Hen Pheasant

Pheasant day has come and gone and now a prosecution follows as an aftermath. Michael Kastor appeared in Saturday morning court at St. Catharines to answer to a charge of illegally having hen birds in his possession, the charge being laid by Deputy Game Warden O. H. Robinson. The plea was guilty and no explanation was offered. The fine was \$26.25.

Unemployed Must Prove Year's Residence

The unemployed at Welland must prove residence of one year before being given work in conjunction with the federal relief scheme, city council has decided. Cases of less than a year's residence, however, will be investigated but will be decided afterwards upon their merits.

THE CELEBRATION OF HALLOWE'EN

Among the community events which furnish wholesome entertainment and direct the activities of exuberant youths on Halloween night in right channels, is the Halloween parade held in Grimsby which this year exceeded the expectations of even the most optimistic. Everyone entered wholeheartedly into the spirit of the occasion. Merchants, Manufacturers and citizens in general not only donated cash and other prizes but even participated in the parade themselves and showed a disposition to co-operate to the fullest possible extent.

Initiated two years ago by Mr. H. Hillier, the well known merchant who on more than one occasion has displayed a commendable community spirit, it has largely through his indefatigable and painstaking efforts, in association with other enthusiasts in the cause, been carried through to conspicuous success. As it grows bigger and better with each passing year it demands more effort and time and that these are given so willingly and self-sacrificingly by Mr. Hillier and those associated with him, evidences a genuine desire to be of service to the community.

The citizens of Grimsby and surrounding community have on two occasions on which it has been held, shown their appreciation in no uncertain way, the increasing number attending the event affording convincing evidence of its growing popularity.

This community event serves an admirable purpose in bringing the people of the town and district together and in providing a diversion which in the case of the older folk is a reminder of their own youth while furnishing a delightful evening's entertainment for the young people of the present generation.

May it continue to contribute to the happiness of the members of the rising young generation in the community as well as those older in years.

Want Government To Bear 100% of Maintenance Cost

A conference of the road committees of Lincoln, Wentworth, Haldimand and Welland with engineers of the respective counties, was held at Cayuga Tuesday to discuss the matter of the Provincial Government assuming one hundred percent of the maintenance of the provincial highways. At present the counties are requested to take care of 20% of the maintenance costs. Representations will be made to the highway department with this object in view.

Warden Oakes was among those in attendance.

The Week's News of The Surrounding District

STONE CREEK

Auto thieves continue to ply their trade around the village. The latest to have his car stolen was Norman Bartlett of Fruitland, while attending choir practice at the United church on Thursday evening. The police were communicated with at once, but no trace of it could be found. It was a Chevrolet coupe, the license number being 3373.

The officers of the Saltfleet Plowing society have all arrangements made for the plowing match taking place Thursday, November 6, on the farm of Ernest Tweedle, Tapscott. Valuable cash and other prizes are being offered in the different events. The match is open to all comers. A good field of contestants is already assured. James D. Stuart is president and Ernest Tweedle, secretary of the association.

An unusually large number of deer hunters are leaving for the north this season. From Red Hill club, No. 1, Stan House, William House, Ernie House, A. Nugent, N. Swaziey and Guy Smith are going, and from Red Hill Club No. 2, H. Clough, Jack Gray, Frank Platt, Albert Woodman, Arthur Smith, Joe Alton, George Thornton. The hunters who spent Thursday's day shooting in the eastern part of the peninsula report the birds very scarce and doubt the wisdom of the game and fisheries department in having an open day this season.

VINEMOUNT

The Vinemount Literary society re-organized for the coming season on Wednesday evening, when the following officers were elected: President, Lewis Hawkey; first vice-president, Wilbert Ready; second vice-president, Norman Burdick; secretary, Guilford Martin; treasurer, Miss Dorothy Thomas; pianists Mrs. George Gliddon and Miss McMeekin; editors of society paper, James Bertam and Thomas Dear; door-keepers, Kenneth Hill and Percy Shuker; dramatic convenor, Mrs. Joseph Bowslaugh; debating committee, Norman Burdick, Walter Johnston, Philip Shuker, James Bertam; press correspondent, Miss Annie Johnston.

The first regular meeting will be held in the hall on Friday, November 14, at 8 p. m., and the meetings will be held every two weeks from that date.

Curtis Swaziey, of Grimsby principal of Normandale school, preached at the Women's Institute service on Sunday, evening November 2, at 7.30 p. m.

William Fortman, who has been suffering from a severe attack of tonsillitis is recovering.

Mrs. Martha Longley is visiting relatives in Buffalo.

A pheasant walked and flew through the main street of the village on Saturday morning, apparently as a mark of derision at the local nimbards. The bird was first observed as it appeared from the railway cut, a short distance from the main road, up which it proceeded at a leisurely pace, never flying higher than a man's head. It showed no fear of people, and disappeared down the road towards the mountain brow.

Miss Jenny Douglas, a bride-elect of this month, was tendered a kitchen shower by her friends, at the home of her sister, Mrs. Stuart Hart, on Saturday evening. Over thirty-five people were present, and the evening was pleasantly spent at cards.

Despite the inclement weather on Sunday evening there was a good attendance at the W.I. service when Curtis Swaziey, of Grimsby, preached acceptably.

The Uxton club met on Thursday evening in the hall, and the following were the prize winners: Men's first, William Wilbur; second, Ernest Tamsley. Ladies' first, Mrs. R. Gowland; second, Mrs. R. Staples; specials,

H. and Mrs. Depew. The young people of Rock Chapel church held their first bowls match on Wednesday last, when a social time was enjoyed by all. It was decided to hold a Halloween party on Friday, October 31.

The Vinemount Literary society is arranging for a meeting on Wednesday evening, October 3, to consider reorganizing for the coming season. A special meeting of the W.I. was recently held in the hall to make further arrangements for the Thanksgiving supper which the institute is holding in the hall on November 4.

Mrs. Roy Lee has been considering moving to Vinemount, where she is expecting to arrange for classes in music.

BEAMSVILLE

The elections for the 1931 students council at the high and vocational school were completed Thursday morning and the result of the polls was as follows:

For president — Ben Garrett, 130; Norman High 72; first vice-president — Fred Barnes, 156; Wilfred Finbow 44; second vice-president — Jack Fairbairn, 110; Doris Saunders 90; general secretary — Barbara Stone 106; D. Burkholder 97; first assistant secretary — Rheta Culp 114; Maud Munshaw 81; second assistant secretary — Murray Tufford 120; Bruce Johnston 84; general treasurer — George Gayman 107; Anna Culp 94; first assistant treasurer — M. Markey 118; W. Thornton 78; second assistant treasurer — Betty Mackie 103; Frances Richardson 94; second year vocational representative — A. Waterworth 133; Jan McLellan 59; first year vocational representative — Dolly Long 124; Tom Willoughby 68.

The first meeting of the new council will be held on Wednesday afternoon.

Binbrook

The Binbrook Women's Institute met at the home of Mrs. A. Henderson with a very large attendance. Mrs. Hugh Johnson, president, had charge. After the usual routine a program was given. Mrs. Baxter of Hamilton gave an address on "The League of Nations." A vocal duet was sung by Miss Aileen Johnson and Mrs. V. McCallum. "Current Events" were discussed by Mrs. Stanley Switzer and a piano solo was played by Mrs. Leslie Laidman. Refreshments were served by Mrs. E. Whitwell Miss Clara Weaver, Mrs. H. Lester and Mrs. E. Ridge. The November meeting will be held in the Binbrook Memorial hall, when the Vinemount ladies will be the guests.

Fined \$200 for Conspiring to Burn Unoccupied House

In police court Saturday, Mongo Nixon, a member of the Milton town council, and S.W. Fawcett, of Burlington, real estate dealer, were arraigned before Magistrate W.J. Barr on a charge of conspiring to burn an unoccupied house on King street. Milton Nixon pleaded guilty to the charge, while Fawcett pleaded not guilty.

It is stated by the police that they hired a local man to burn the house for a fee of \$60. This man is said to have notified Chief Smith and the laying of information against the two followed. It is also stated that coal oil to be used to saturate the house was purchased locally. Burlington Crown Attorney N. D. Dick prosecuted the case. They were both fined \$200 and costs.

Record Number of Building Permits At St. Catharines

It is believed that building permits for October will establish a record for the number issued in any one normal month in the city's history, the total being more than \$100,000. October was a normal month, no large building enterprises being recorded, the building being almost entirely of residences. Building Inspector McPherson stated that, despite depression, building has been active in St. Catharines since spring and shows no signs of lessening in the cold months.

County Police to Investigate House Fire at Fruitland

County police have been asked to investigate a fire at the home of Arthur Emrit, Fruitland, which was destroyed Monday night by its contents while the family was in the house.

Investigation is suggested by the fact that the fire was caused by a gas stove which had been turned on. No charges have been filed. Mr. Emrit has conferred with Cnn Attorney Ballard, K. C., and the insurance company's department. Toronto, have notified.

Something Else in "What is your brother college?" "A hall mark." "I mean in studies." "Oh, in studies, he's back."—Montreal Star.

"When The Frost Is On The Pumpkin"; Hockey Players Start A'humpin'"

By J. Orlon Livingston

Hockey season is just around the corner. If you don't believe me ask Jimmy Bell, the new high potentate of the Grimsby Arena. Jimmy is getting things in shape fast up at the Livingstone avenue ice palace and it won't be long now until the players, near players and never wases will be hitting the frozen H2O in more ways than one.

The flock of Grimsby lads that perform for the edification of the city gazaboos in the monied ranks have all been hard at work for the past month and will soon be playing the regular schedule.

Artie Clark, the Nottawasaga Flash is back in Cleveland with the Indians again this winter. Artie was always noted for his nerve and two weeks ago exhibited it in another form. He took unto himself a wife. The young lady was a native of Cleveland.

"Buddy" Fisher is down in Pittsburgh guarding the nets for the newly amalgamated Millionaires and Niagara Falls team that will represent the Smoky City in the International League.

Marvin "Cyclone" Wentworth is going great guns with the Chicago Black Hawks, while Jerry Carson is practicing in Montreal with the Canadiens, although he is slated for a year with Providence in the Canadian-American league being sent there by the Canadiens owners to replace MacVicar on the defense.

"Pud" Reid, the old centre ice star of the famous Peach Kings is not out of hockey by any means. The flannel haired Beamsville boy is slated to coach the Grimsby entry in the junior ranks of the O.H.A. Since hanging up his hockey stick "Pud" has bent his efforts along other lines of sports and is now rated as one of the best horse shoe pitchers in the Fruit Belt. He has won several prizes in a year with yard competition and is now headed for "Big Time" stuff in the Ontario Championship field.

Last spring Montreal Maroons handed the Providence Reds a big bale of tale and a couple of players for "Old Pop" MacVicar, the lanky defence-man who made hockey history on the Peach Kings, and Pop has been in training in the Quebec metropolis since October 4th. According to all reports Pop has crashed the gate into big league company with a bang. The

following news despatch clipped from the Ottawa Journal tells its own story:

NEW MAROON STAR HOCKEY PRODUCT OF OTTAWA VALLEY

The Ottawa Valley, which has contributed so many stars to professional and amateur hockey and which list includes such luminous names as those of Nighbor, Lehman, Fraser, Cameron, Trotter, Phillips, Reize, and others will likely have another name to conjure with before the season is over.

This is "Long John" McVicar, product of Renfrew, who starred in the charity game between Maroon regulars and rookies before 15,000 people in Montreal Saturday night. McVicar, a graduate of Providence, and a native of Renfrew, received his schooling last year from Sprague Cleghorn who, incidentally, started his pro hockey career in Renfrew in the days of the Millionaires.

As a youngster he used to steal his way into the rink to keep his eyes glued on such performers as the Patricks, Cleghorns, Cyclone Taylor, Hay Miller, Fred Whitcroft, Newey Lalonde and Bert Lindsay. His debut against the Maroon regulars was so auspicious Saturday night that he is expected to form one part of the regular defence.

McVicar is built on spare lines and weighs only 154 pounds, but he has all the strength of a steel trap, and his poke checking is very much like that of Lionel Hitchman.

It is his body checking ability that astounded the crowd as he tumbled such titans as Hooley Smith, Dave Trotter and Bill Phillips with ease. A player has to have something to uproot Bill Phillips on his skates. McVicar made a calculated move, and his ability to poke check incoming forwards was a highlight of his game.

The Renfrew prospect has had a lot of experience in the ten years. He played with the Grimsby Peach Kings as an intermediate after leaving Renfrew, turned pro with Chicago and was with Quebec when Newey Lalonde was manager and wound-up with Providence. "Buck" Boucher who is now filling a coaching role with Maroons believes McVicar will be one of the sensations of hockey.

Next week—Amateurs and prospects of the local teams for the coming season.

LOCALS

A rugby game between Grimsby High School and St. Catharines High School will be played at St. Catharines on Tuesday next. Grimsby was defeated last Wednesday by Cathedral S.S. at Hamilton by a score of 13-7.

Grimsby Bakery will be open until 10 o'clock a.m. on Thanksgiving. On Tuesday, November 18th, Mr. J. R. Gibbs will give a lecture on Astronomy in St. John's Presbyterian Church, under the auspices of the Westminster Club. Everyone is invited to attend.

The Westminster Club of St. John's Presbyterian Church held a very successful Halloween social on Monday evening in the Grimsby School Hall. Following the program games were enjoyed, after which dainty refreshments were served by the social committee.

A large number attended the Halloween Dance held by the L.O.O.F. on Friday evening last, the event proving a most successful and enjoyable one.

Permit Needed to Secure Native Wine

New Regulation Went Into Effect Saturday—Government Seal On All Wine Bottles.

Proprietors of wineries were introduced to a new regime recently the government regulation compelling the use of a permit for the purchase of native wines coming into force. Under the new system there will be two classes of permits, which can be used to purchase hard liquors, wines and beers, and the new wine and beer permits, which are good for native and imported wines and for beer. The latter sell for \$1 and may be purchased at all wineries and brewer's warehouses.

The winery proprietors are forced to put a government seal on all the wine that they bottle from now on. The wineries will undergo a more rigid inspection in the future than has been the case up to now. The chief change that will come under the new legislation is the fact that a person may now buy a single bottle of wine on their permit, the minimum purchase was three cases. There is now no restriction as to the smallest amount that may be sold, so long as it is in bottles.

The same relations covering tourist permits will remain. Persons making a visit to the Canadian side for only a week or two will get a temporary permit good for one month. Americans with summer residences on this side in which they remain two or three months a year, will be eligible to secure the permanent permit.

MISLAID

The minister was making an inter-venable call. He sat and talked on and on. Little Daughter of the House. "Mother, hasn't he brought his American money?"

Pot Hunters Wipe Out Pheasant Colony At Hamilton Beach

Sportsmen at the Beach and vicinity were up in arms over the action of a gang of lawless pot-hunters, who created havoc among the game in the vicinity of the Beach cut-off earlier last week. While the sporting pot-hunters of the non-Anglo-Saxon have in the past amused Beach sportsmen, who have beheld them slaughter divers and mud hens with amused toleration, the proceedings earlier this week will result in police court cases and heavy fines if the parties are apprehended.

For some time past pheasants have been reared in the marsh east of the cut-off. The other day a group of non-English-speaking men, obviously not entitled to carry weapons in Canada, cleaned up in close season on the tame birds, which apparently were slaughtered.

ed sitting. It is reported that the entire pheasant colony was wiped out. Sportsmen who pay \$2 for shooting licenses, and who observe the game rules, are very indignant over the incident, and are commenting upon the hopelessness of raising game birds here when the other fellows will not play the game.

AMPLE REASON

An old Scots minister was tireless in visiting the members of his flock. He had noticed the absence from church of one hitherto regular attendant.

"Donald," he said to this man, "I havena sen ye in the kirk lately."

"Na, sir," "Weel, ye ken, I wad like tae know the reason."

"Weel," replied Donald, "I hae three decided objections. Firstly, I dinna believe in sae muckle singing; secondly, I dinna believe in bein' whaur ye do all the talking; and thirdly 'twas there I got me wife."

THE GRIMSBY DRYGOODS CO.
